LMS component audit (29 Oct 2026)

Every section and component of the original prototype (the `OneDrive\Documents\Mascot character` copy, served on 127.0.0.1:5501, and the earliest backups) was checked against the current live version of the three portals, running with the backend on this computer.

Status key

- **Live**: present and working with real data from the server.
- **Restored**: missing or still on demo data before this audit; rebuilt or connected to the server today.
- **Partial**: present, but part of the original component is not there yet (see notes).
- **Demo (labelled)**: still sample data, kept on purpose and clearly marked on screen. It waits for a provider.
- **Missing**: in the original, not in the live version. It needs a backend or a decision (see notes).

Checks covered three things: the code, the API routes behind each screen, and the browser, signed in as Riya and Neha (students), Vikram (trainer) and Priya (Platform Admin).

Summary

Portal	Live	Restored today	Partial	Demo (labelled)	Missing
Student Academy	24	2	2	0	0
Trainer console	23	4	7	0	4
Admin console	19	5	8	5	3

What was missing and is now restored

1. **Admin → Student Management**: the list and the student record (Profile, Progress, Labs, Audit) ran on sample data in live mode. Both now come from the server. Filters use the real batches.
2. **Admin → System Settings**: ran on sample data. All server sections (plans, XP, AI caps, promos, maintenance, policy, auth, gamification, placement) are now editable. Each save is versioned and audited. Policy, plans and auth ask for an authenticator code.
3. **Admin → Notifications → Holiday calendar**: was absent in live mode. It is back, saved on the server, and students see it on the Ops Calendar.
4. **Admin → Dashboard search**: searched sample users. It now searches real students by name, email or user ID.
5. **Trainer → Messages → Post to batch and Announcement history**: the original had them, the live version did not. They are rebuilt with a new API: the trainer's own batches only, audited, and students are notified.
6. **Student → My Handler → Trainer announcements**: rebuilt and fed by the trainer's posts.
7. **Trainer → Content**: course builder (owner, 29 Oct), course files and folder uploads with type checks, cover image, and attaching files to lessons. Students open lesson files.
8. **Trainer sidebar**: the stale "Demo data. No backend is connected" note now says "Live data".
9. **Clear labels on what is still sample data**:

- Admin Dashboard paid-access queue and alerts

- Finance + Dues

- CTF Registrations

Student Academy (academy.html)

Section	Component	In original	Current status	Notes
Sign-in and onboarding	Login popup, Yes/No, email-first sign-up, details locked	Yes	Live	29 Oct
Sign-in and onboarding	Access portal with audio	Yes	Live	Restored 29 Oct; 4.44 s, sound and skip buttons
Sign-in and onboarding	Career quiz or skip, team choice (once)	Yes	Live	
SOC Console · Dashboard	Welcome hero, rank, XP	Yes	Live	
SOC Console · Dashboard	Active operation, daily patches, weekly field ops	Yes	Live	

Section	Component	In original	Current status	Notes
SOC Console · Dashboard	Streak (28 days), power levels, weekly league	Yes	Live	
SOC Console · Dashboard	Trophy case, recent victories, campaigns	Yes	Live	
Incident Response · Missions	Mission list, practice missions, hints	Yes	Live	Lab environments: practice labs only until the lab provider is linked
Hunter Rankings	Leaderboard	Yes	Live	
Intel	Feed, top blogs, comments, my blogs, submit for review	Yes	Live	Reviewed in Admin → Intel Review
Career	Career page, quiz, choose or change path	Yes	Live	
Cyber Arsenal (courses)	Catalogue, my courses, course page, lessons	Yes	Live	
Cyber Arsenal (courses)	Lesson files (video, PDF, slides, lab files)	Yes	Restored	29 Oct: from trainer uploads, access checked per file
Cyber Arsenal (courses)	Plans (free / paid)	Yes	Partial	Shown; buying needs the payment provider (OI-58)
Training Grid	Deployment Record (attendance by course, sessions, leave)	Yes	Live	
Training Grid	Ops Calendar	Yes	Live	Includes admin holidays
Training Grid	My Handler: trainer card, slots, bookings, messages, ratings	Yes	Live	
Training Grid	My Handler: trainer announcements	Yes	Restored	29 Oct
Training Grid	My Handler: recent feedback on graded work	Yes	Partial	Grades and trainer feedback show in Incoming Challenges, not on this page
Training Grid	This Week	Yes	Live	
Training Grid	Campaigns (courses learning and pending)	Yes	Live	
Training Grid	Incoming Challenges (assessments)	Yes	Live	
Training Grid	Placement Mission (resume, portfolio, mocks, milestones)	Yes	Live	
Training Grid	My Resume	New	Live	29 Oct
Header	Bell notifications, profile, settings, logout	Yes	Live	
Header	Orbi assistant	Yes	Live	Answers need the AI provider; shows its honest state
Streak	Keep or reset decision	Yes	Live	
Certificates	My certificates and public verify	Yes	Live	PDF files need storage (OI-45)

Trainer console (trainer.html)

Section	Component	In original	Current status	Notes
Dashboard	Welcome, today, to do, students to check on	Yes	Live	
My Batches	Batch list and overview	Yes	Live	
Students	List and 360 profile (index, flags, sessions, labs, assessments)	Yes	Live	

Section	Component	In original	Current status	Notes
Students	Remarks and notes, placement readiness, requests to admin	Yes	Live	
Students	Learning progress per course	Yes	Partial	Shown in the course Students page, not on the profile
Classes	Schedule, create and edit sessions	Yes	Live	
Attendance	Lecture register, marking, corrections with reason	Yes	Live	
Attendance	Leave requests	Yes	Live	
Attendance	Concepts covered per lecture	Yes	Partial	Session topic only
Attendance	Absence clearance queue	Yes	Missing	No backend for clearing an absence after the fact; needs a decision (who approves, effect on %)
Content	Course builder list, tabs, cards	Yes	Live	29 Oct
Content	Create course (title, track, level, duration, description, outcomes, batches)	Yes	Live	29 Oct
Content	Cover image	Yes	Restored	29 Oct
Content	Modules, lessons, FAQs	Yes	Live	
Content	File and folder uploads by type of content	New	Live	29 Oct; virus scan pending (OI-45)
Content	Manage: publish, request unpublish, details, batches, co-editors	Yes	Live	29 Oct
Content	Change requests (approval after publishing)	New	Live	29 Oct
Content	Enrolled students	Yes	Live	
Content	Publish readiness checklist	Yes	Partial	The server refuses an empty course; no checklist view
Content	Edit history with compare and restore	Yes	Missing	Version number only; needs content snapshots (decision: how many versions to keep)
Content	Catalog listing (format, audience, prerequisites, labs, certificate)	Yes	Partial	Admin can edit them; the trainer cannot yet
Content	Lesson settings (preview, required, completion rule, release date)	Yes	Partial	Type, status, length, link, text and file only
Assessments	List, create, questions, release, extensions, report	Yes	Live	
Assessments	Submissions and grading with feedback	Yes	Live	
Assessments	Upcoming deadlines card	Yes	Missing	Small; dates are in the list
Lab Monitor	Progress, stuck rule, nudges	Yes	Live	
Mentoring	Requests, sessions, slots, outcomes, mock results	Yes	Live	
Mentoring	Placement reviews (resume, portfolio, milestones)	Yes	Live	
Mentoring	Weekly availability template	Yes	Partial	Slots one by one
Messages	Inbox, reply, new message	Yes	Live	
Messages	Post to batch	Yes	Restored	29 Oct
Messages	Announcement history	Yes	Restored	29 Oct
My Feedback	Average, by rating, comments	Yes	Live	Anonymous to the trainer
My Feedback	Rating trend by month	Yes	Missing	Data exists; chart not built

Section	Component	In original	Current status	Notes
Profile	Profile details	Yes	Live	
Profile	Sign-in security (sessions, MFA)	Yes	Partial	Password reset from the login page; no session list here
Header	Bell, sign out	Yes	Live	
Sidebar	Live data note	Yes	Restored	Said "Demo data" before

Admin console (admin.html)

Section	Component	In original	Current status	Notes
Dashboard	Control room header, clock, MFA chip	Yes	Live	
Dashboard	User search	Yes	Restored	29 Oct; real students
Dashboard	Total, free, paid tiles	Yes	Live	
Dashboard	Pending approvals tile and paid-access approval queue	Yes	Demo (labelled)	Owner, 24 Oct: stays demo until the payment provider (OI-58)
Dashboard	Needs your attention	Yes	Demo (labelled)	Real pending work is in the bell and the queues below
Dashboard	Operational overview	Yes	Partial	Users live; other bars labelled as samples
Student Management	Student list with filters	Yes	Restored	29 Oct
Student Management	Student record: Profile, Progress, Labs, Audit	Yes	Restored	29 Oct
Student Management	Edit details (institution, city, mode, note)	Yes	Missing	No admin profile-edit API yet; shown read-only
Student Management	Payments tab	Yes	Demo (labelled)	Hidden in live mode until the payment provider
Student Management	Staff accounts and trainer invites	Yes	Live	
Total Users	Breakdown and list	Yes	Live	
CTF Registrations	Registration list, confirm, cancel	Yes	Demo (labelled)	Admin CTF API not built yet; counts are in Total Users
Enquiries	Submissions, notes, history, status	Yes	Live	
Attendance	Register by batch, export	Yes	Live	
Attendance	Correction history	Yes	Partial	Corrections need a reason and are audited; no history table here
Attendance	Trainer attendance (on duty, marks)	Yes	Missing	No backend; needs a decision
Performance	Students and index	Yes	Live	
Performance	How the index is made, attendance trend	Yes	Partial	Weights are in Settings → Policy; no trend chart
Courses	List, create, details, modules, lessons, FAQs, batches	Yes	Live	
Courses	Trainer changes (who, when, why)	New	Live	
Courses	Change requests (approve or reject)	New	Live	29 Oct
Courses	Publish readiness, version history	Yes	Partial	Server check on publish; version number and change log only
Labs	Missions, hints, answers, completions	Yes	Live	

Section	Component	In original	Current status	Notes
Labs	Environment settings	Yes	Partial	Needs the lab provider
Assessments	List, create, questions, submissions, report	Yes	Live	
Assessments	Shared question bank	Yes	Missing	Questions belong to one assessment
Intel Review	Queue, decisions, history, counts	New	Live	29 Oct
Finance + Dues	Fees, payments, dues, reminders, second-admin	Yes	Demo (labelled)	Owner, 24 Oct: needs the payment provider (OI-58)
Analytics	Career paths, quiz, learning, labs, assessments, batches	Yes	Live	
Analytics	Payments and dues	Yes	Partial	Needs the payment provider
Insight Engine	Rules and matches	Yes	Live	
Notifications	Broadcast to students	Yes	Live	
Notifications	Holiday calendar	Yes	Restored	29 Oct
Notifications	Wish templates, delivery log, scheduled sends, recall	Yes	Partial	Need the messaging providers (OI-01)
Student Reports	Per-student report, requests from trainers	Yes	Live	
Student Reports	Report builder and archive	Yes	Partial	Per-student report and CSV exports only
Certificates	List, issue, revoke, verify	Yes	Live	
System Settings	All sections, change history	Yes	Restored	29 Oct; versioned, audited, authenticator for policy, plans, auth
Header	Bell, sign out, role chip	Yes	Live	

How to check it yourself

1. Start the backend (VS Code task "Academy API") and open the pages from Live Server or `localhost:8000`.
2. Sign in from the login popup with the demo accounts on the sign-in page (students Riya and Neha, trainer Vikram, admin Priya).
3. Screens marked **Demo (labelled)** show a red "Demo" chip and a note saying what they wait for.
